Your bill may appear different and may not include all the information contained in this sample bill. All information can be obtained by logging into your account at [LINGO.com](http://LINGO.com).

# Understanding Your Bill

Each subsequent page will include Location Level and Individual Line level details, separated by dark grey headers with the location identification information.

Subsequent pages provide per service detail for all products and locations.

The product type is listed under **Service**. The charge reflected shows the price of the service if no term was associated to the service.

Discounts received based on the term or special offer agreement will also be reflected in the services detail.

Special note about **Taxes and Surcharges**.

Total taxes are comprised of a combination of city, county, state and federally-mandated surcharges. These may also include taxes reflected separately after all other service details are provided.

Every state and municipality is different, so certain surcharges and rates may be different depending on the service location.

All surcharges and taxes listed here are specifically intended for use as an example only and should not be interpreted as representing actual surcharge rates or tax percentages.
